REQUEST FOR CERTIFICATE OF CORRECTION

Commissioner for Patents:

     A certificate of correction is respectfully requested in the above-identified patent. The following errors have been made:

     In column 8, claim 5, line 35, the section "producing first and second images sequences" is erroneous and instead should read as -- producing first and second image sequences --.

     In column 9, claim 8, line 10, the section "decoded images of first and second images sequences" is erroneous and instead should read as -- decoded images of first and second image sequences --.

     In column 10, claim 16, line 10, the section "decoded image sequence a second MPEG stream" is erroneous and instead should read as -- decoded image sequence from a second MPEG stream --.

     In column 10, claim 17, lines 29-31, the section "priority to received non-frame interlaced image sequence and a third decoding priority to received frame-interlaced image sequence during a first" is erroneous and instead should read as -- priority to received non-frame-interlaced image sequences and a third decoding priority to received frame-interlaced image sequences during a first" --.

     In column 10, claim 18, line 34, the section "a pointer memory to store images sequences" is erroneous and instead should read as -- a pointer memory to store image sequences --.
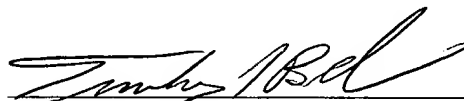

The errors are of a clerical nature, are of minor character, would not constitute new matter or require reexamination, and were made in good faith.

Attached is the certificate of correction, which indicates the corrections to be made, by reference to the category and page number in the printed patent. The Director is hereby authorized to charge payment of any fees associated with this communication only to Deposit Account No. 19-1090.

Respectfully submitted,
SEED Intellectual Property Law Group PLLC

UNITED STATES PATENT AND TRADEMARK OFFICE
CERTIFICATE OF CORRECTION

PATENT NO   : 7,369,614 B2
DATED   : May 6, 2008
INVENTOR   : Jean-Michel Moutin

It is certified that an error appears in the above-identified patent and that said Letters Patent are hereby corrected as shown below:

Column 8
Line 35, "producing first and second images sequences" should read as -- producing first and second image sequences --

Column 9
Line 10, "decoded images of first and second images sequences" should read as -- decoded images of first and second image sequences --

Column 10
Line 10, "decoded image sequence a second MPEG stream" should read as -- decoded image sequence from a second MPEG stream --

Column 10
Lines 29-31, "priority to received non-frame-interlaced image sequence and a third decoding priority to received frame-interlaced image sequence during a first" should read as -- priority to received non-frame-interlaced image sequences and a third decoding priority to received frame-interlaced image sequences during a first --

Column 10
Line 34, "a pointer memory to store images sequences" should read as -- a pointer memory to store image sequences --
